2. Based on combined 2022 revenues of Royal DSM and Firmenich

3. Indicative and based on FY2021 sales figures

Business units

Founded on operational excellence, we are uniquely positioned to help our customers realize their ambitions and address the latest consumer needs and wants.

Perfumery & Beauty

Delighting the world with superior scents created from a palette of sustainable ingredients.

E.g. a household cleaning product infused with natural ingredients to smell like a pine forest.

Taste, Texture & Health

Partnering with the food and beverage industry to overcome the trade-off between palate and planet.

E.g. a plant-based sports drink with a delicious taste and the essential vitamins and proteins to help your body recover after intense activity.

Health, Nutrition & Care

Delivering critical nutrients for proactive health in every stage of life and every sort of lifestyle.

E.g. fortified rice that boosts intake of vital vitamins and minerals, whether soaked, rinsed, or cooked.

Animal Nutrition & Health

Powering the production of sustainable animal protein, transforming global food systems for good.

E.g. our feed additive Bovaer®, reducing methane emissions.

Proven science that improves lives

Science holds the key to progress. Our research unlocks the door.

Co-creation and innovation opportunities to customers through:

15 R&D

facilities developing solutions for key global markets

2,000 +

of the best and brightest scientists and engineers

16,000 +

patents across approximately 2,600 patent families

€700 m +

investment in R&D annually

Doing good, better than ever

As a company formed of two global sustainability leaders, we're determined to keep growing our positive impact – for the good of people, climate, and nature.

We want to be the industry's standout global ESG leader as one of the best accredited firms in the world.
